

Kaawaate East City Public School

Motto

Learning to Lead, Ready to Grow, Stronger Together

Our school motto above, flows from our belief in leading the way through character and innovation. We are always growing, with a 'moving forward' mindset and an emphasis on being stewards of the environment around us. We are two schools coming together, collaborating with others, and leveraging our collective strengths to positively impact our community.

Logo

Our school logo is representative of our continual growth, connection to the earth, trees and sky, and both honours and reflects the Kaawaate portion of our school name, meaning Shining Waters. The two half circles represent the joining of two schools, and the leaves represent the diversity of students and staff.

Colours

Our school colours, (Rust, Green and Teal) mirror the glass colours found within the material of our building, and are representative of the three levels of our school, and the earth, tree and sky.

Mascot

Our school mascot is the Navigators and conveys our goal for students and staff to continue to be innovators charting their own path towards success. Everyone's journey will be influenced by different people, individual goals and unique perspectives. As each person navigates their path, they are learning to respectfully interact with each other, and also the environment.
